

Be the Hero "Because Grey Matters"

Support Wonder(ful) Woman Theresa Tomlinson in her fight against the injustice of the evil madman Pineal Cystonator invading her brain. This dastardly villain has masterminded a plot to take over her life with massive headaches, blinding visual disturbances and dizzying up's and down's - All with devastating financial consequences!

All joking aside! Our very own Wonder Woman Theresa is fighting the battle of her life against the devastating effects of a massive 1.6 cm x 1.3 cm pineal cyst that is causing debilitating symptoms.

- All Theresa wants is to live a "normal" life without pain and suffering.

Theresa is scheduled soon to have surgery to remove her pineal cyst by amazing Houston (TEXAS) Neurosurgeon Dr. Dong Kim. Most of her surgery costs are covered by her insurance - thank heavens! But... It's the out of pocket costs and day-to-day living expenses during the 3-6 month recovery period that Theresa is having to fundraise for before she can have the urgently needed surgery. So please dig deep and donate today!

Pineal Cysts are

Liquid Filled Tumors located in the center of the brain. They range in size from 5 mm to 4 cm.

They have debilitating symptoms as follows:

Horrible Headaches

Dizziness

Vision Loss

Hearing Loss

Black Out Spells

Urinary Issues

Hand and Feet Pain

Plus Much More!

The **surgery is serious** and only 4 neurosurgeons in the world are able to perform this brain surgery.

Please donate today as little as \$1 or more can help her receive this much awaited gift of life. The website is very easy to navigate and is secure.
